

Exploring Colour Calligraphy

Exploring Colour Calligraphy is a stress-free colour mixing experience suitable for beginners and more advanced calligraphers looking to improve their creative process.

This practical online hour-long tutorial will help you develop the skills and confidence to mix any shade of colour you need.

The session will be delivered via Zoom either one-to-one or in a small group to allow time to discuss issues specific to each individual.

You will learn how to:

- create a split primary colour wheel
- mix and organise your colours
- write with broad and flexible nibs using gouache
- create limited colour palettes and utilise them in your own projects

At the end of the session you will be sent the Zoom recording along with detailed handouts and links to colour mixing videos.
