

## 1. Versals & variations

The basic versal technique of writing compound strokes by building up with a narrow edged pen will be taught, and is a very good skill builder for calligraphers. The historically-rooted basic versals that will be taught and used, give an excellent basis for experimenting with forms later on during the tuition. These can be used creatively in contemporary work. Tuition is very flexible to individual requirements, and can cover the use of versals with the lay-out and design of short texts if required. Tuition is very flexible to individual requirements, and can cover the use of versals with the lay-out and design of short texts if required. One-to-one zoom tuition is recommended but there are also other possibilities if preferred. Zoom video with tutor-led demonstrations and student practice, supplied after each session, with tutor demo sheets scanned by e-mail.
