

## Plain unadorned writing development

We want to offer personal or group tuition to people who don't yet feel confident in their calligraphic writing. We're happy to offer this as individual tuition, or to small groups. We know from our own time under Ann Camp that we learnt as much from each other as students, as we did from our tutors. That's the benefit of many minds considering the same subjects together.

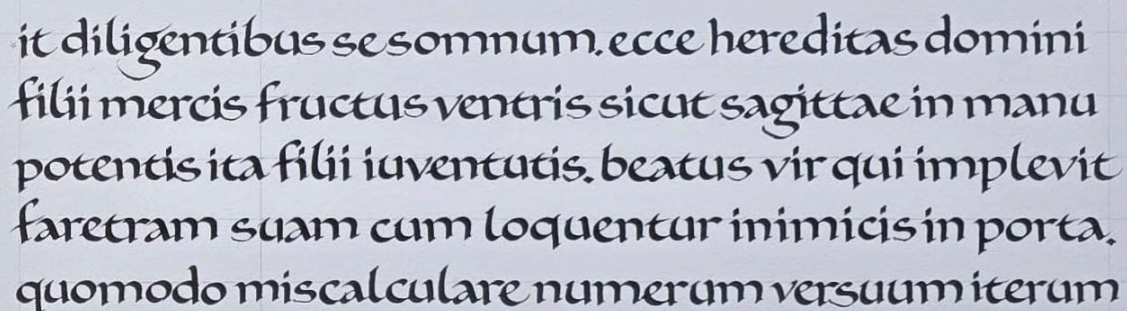

We are happy to teach short sessions if needed, addressing particular problems that an individual may be encountering. We will of course make recommendations and can supply suitable study material. We propose teaching live over the Internet, and if it proves useful, via posted work. We live in opposite time zones (Sue in the UK, Richard in New Zealand) yet we have a work session together each week and are used to varying our live contact times.

Please contact us for more details and to discuss your needs:
